

## Facility List

The Walt Disney Company is committed to fostering safe, inclusive and respectful workplaces wherever Disney-branded products are manufactured. Numerous measures in support of this commitment are in place, including increased transparency. To that end, we have published this list of the roughly 7,000 facilities in almost 70 countries that manufacture Disney-branded products sold, distributed or used in our own retail businesses such as The Disney Stores and Theme Parks, as well as those used in our internal operations. Our goal in releasing this information is to foster collaboration with industry peers, governments, non-governmental organizations and others interested in improving working conditions.

Under our International Labor Standards (ILS) Program, facilities that manufacture products or components incorporating Disney intellectual properties must be declared to Disney and receive prior authorization to manufacture. The list below includes the names and addresses of facilities disclosed to us by vendors under the requirements of Disney's ILS Program for our vertical business, which includes our own retail businesses and internal operations. The list does not include the facilities used only by licensees of The Walt Disney Company or its affiliates that source, manufacture and sell consumer products by and through independent entities.

Disney's vertical business comprises a wide range of product categories including apparel, toys, electronics, food, home goods, personal care, books and others. As a result, the number of facilities involved in the production of Disney-branded products may be larger than for companies that operate in only one or a limited number of product categories. In addition, because we require vendors to disclose any facility where Disney intellectual property is present as part of the manufacturing process, the list includes facilities that may extend beyond finished goods manufacturers or final assembly locations.

*This list includes the names and addresses of facilities authorized to manufacture products or components incorporating Disney intellectual property for sale, distribution or use in Disney's own retail businesses and other internal operations as of July 28, 2017. We intend to update this list periodically. While we have attempted to ensure the accuracy of this list, it may contain errors and omissions as a result of translation issues, insufficient or inaccurate reporting to Disney, timing of new or lapsed contracts, contractual limitations and anti-piracy protection. Inclusion in this list does not constitute a general authorization for a facility to manufacture Disney-branded products; such authorizations are granted only by a separate written agreement and subject to specifications and limitations. In addition, Disney makes no representation regarding any of these facilities for any purpose. This list of facilities changes frequently.*
